Life

RELEASED ON 30th NOV 2009.
Full of amazing filming 'firsts' on every continent and in every habitat – from 250 six foot Humboldt squid hunting as a pack to Komodo dragons (the world's largest venomous animal) stalking buffalo. Cheetahs (notorious lone hunters) working cooperatively to hunt prey twice their size – this is evolution in front of your eyes.

Yet this astonishing series is not simply about revelation, it is also about entertainment. With sequences that inspire awe, wonder, sadness and humour, Life allows us to truly relate to the animals and their endeavours, and to understand and appreciate them as never before.

Complete box set included with the purchase of BDP-LX52 or BDP-LX91.

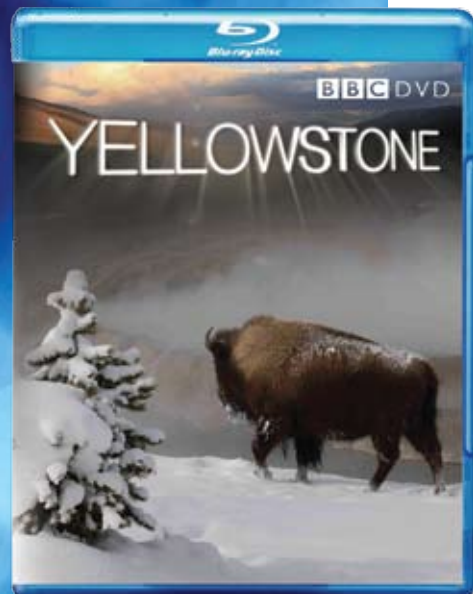

PLEASE NOTE that this title is only being released on 30th Nov 2009 and will be dispatched as soon as available.

Yellowstone

Join the charismatic cast of Yellowstone's national park in Idaho, America as its animals struggle to survive over the course of the vividly changing seasons. Home to America's last great bison herds, the grizzly bear and the wolf – it is the most extensive thermal area on earth with more than 10,000 boiling springs, fumaroles and bubbling mud pots and more geysers than the rest of the world put together.

This landmark BBC Earth series reveals the grandeur of this fascinating place and all its natural wonders. The daily struggles of its wildlife are intimately linked to Yellowstone's greatest secret: that sleeping right beneath the snow is arguably the world's largest volcano.

Special feature: [Yellowstone People](#).

Nature's Great Events

Every year, around the world, seasonal changes transform entire landscapes and draw in millions of creatures. From some animals, this is a time of great opportunity but for others it's the most dangerous time of their lives.

Using state of the art HD technology this series follows dramatic stories of key animal characters as these great events unfold. Series includes THE GREAT MELT THE GREAT SALMON RUN THE GREAT MIGRATION THE GREAT TIDE THE GREAT FLOOD and THE GREAT FEAST.

Special feature: [Nature's Great Events Diaries](#).

Series available as an option with the purchase of BDP-320, BCS-FS500, BDP-LX52 and included with BDP-LX91.

Series available as an option with the purchase of BDP-320, BCS-FS500, BDP-LX52 and included with BDP-LX91.

Earth – The power of the Planet

This landmark BBC series uses breathtaking footage and specialist imaging to tell the story of the great forces that shape the planet - volcanoes, the ocean, the atmosphere and ice. Discover how these forces have not always been benevolent: encased in ice, the Earth nearly froze to death; and a great meteorite strike helped to drive the dinosaurs to extinction.

Yet, through each disaster the planet has steered its own recovery and sustained life. Can it continue this astonishing fight for survival or is man contributing to the Earth's inevitable destruction?

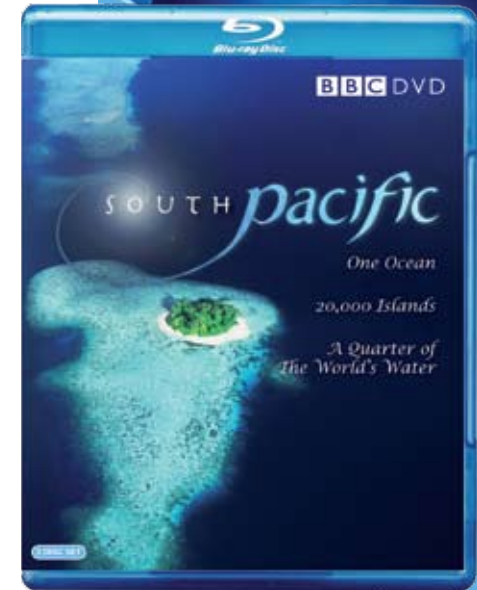

Series available as an option with the purchase of BDP-320, BCS-FS500, BDP-LX52 and included with BDP-LX91.

South Pacific

One Ocean, 20,000 Islands, a Quarter of The World's Water. SOUTH PACIFIC series explores this fascinating part of the world and the wonderful wildlife that lives there.

From Hawaii's coastline to Eastern Island, South Pacific explores erupting undersea volcanoes to jewelled tropical reefs from tiger sharks catching albatross chicks to giant crabs opening coconuts.

It reveals how the islands' isolation has helped evolve flesh-eating caterpillars, vampire bugs with antifreeze in their veins, a strange nocturnal parrot with a mating call like a bull frog and the fascinating monkey-tailed skink. All captured by the most incredible photography and will change the way you see the ocean forever.

Series available as an option with the purchase of BDP-320, BCS-FS500, BDP-LX52 and included with BDP-LX91.
